8467883584 | arunahlawat1996@gmail.com | linkedin.com/in/arunahlawat1996 | github.com/arunahlawat

*Detail-oriented and analytical recent graduate with Strong foundation in **ETL**. Proficient in **SQL, Python, Informatica, Power BI** and data interpretation. Adept at dashboard creation and data visualization, with a passion for deriving insights from complex datasets. Eager to apply knowledge and skills to deliver valuable insights and support data-driven decision-making.*

EDUCATION

Chandigarh University   **2016 – 2020**
BE (CSE) CGPA- 7.36   *Mohali, IN*
Ganga International School   **2013 – 2015**
12th | CBSE 81.2%   *Delhi, IN*
10th | CBSE CGPA- 9.0

EXPERIENCE

Capgemini India (GE Healthcare)   **Oct 2020 – Present**
Associate Consultant (May 2023 – present)
- Modify, enhance, and develop simple to complex parameterized mappings in Informatica PowerCenter using various loading strategies like ,**SCD-1, SCD-2, Delete & Insert**, etc.
- Ingest data into **ORACLE DW** coming from various source systems in the form of delimited flat files or directly from the source database using **Informatica PowerCenter** and **UNIX**.
- Develop medium to complex SQL views in ORACLE and use them as source in ETL mappings to extract their data into delimited files, compatible.

Sr. Analyst (Jan 2022 – Apr 2023)
- Develop jobs using **CRONACLE** tool which validate data between multiple tables belonging to same or different database using ORACLE & Informatica PowerCenter, with an automated email generation process through **UNIX Shell Scripting**.
- Develop Reports in **PowerBI, Tableau and Spotfire** as per client Requirements.
- Manage & carry out the Informatica, Database and UNIX deployment activity as per the steps provided in the Deployment documents & Change tickets.

Analyst (Oct 2020 – Dec 2021)
- Monitor 1000+ ETL Informatica daily jobs built on UNIX server & rectify them spontaneously when failures/issues occur.
- Perform deep dive Data Analysis using SQL, when issues/discrepancies reported by users in Production environment.
- Work on **ServiceNow** incident, problem & change tickets with proper understanding of the ITIL service management concepts

TECHNICAL SKILLS

Languages: Python, SQL, PostgreSQL, PL/SQL, UNIX
Database: Oracle, Teradata, MySQL, PostgreSQL
Tools: Excel, PowerBI, Tableau, Informatica, WinSCP, Putty, Cronacle, Spotfire
Libraries: pandas, NumPy, Matplotlib, Seaborn

PROJECTS

Economic Data Analysis | *Numpy, Pandas, Seaborn and Matplotlib*
Advance Excel Projects | *Pivot Table, Charts, Maps, Slicers, Data Validation, Slicers*
Library Management | *PL/SQL, SQL*
Adventure Works | *DAX, PowerBI, Data Modeling*

REWARDS AND RECOGNITION

Rising Star Q1 2023
Badge for Data Science and AI
